

Transportation and Traffic Theory

Papers Selected for Presentation at 17th International Symposium on Transportation and Traffic Theory, a Peer Reviewed Series Since 1959

ISTTT Series

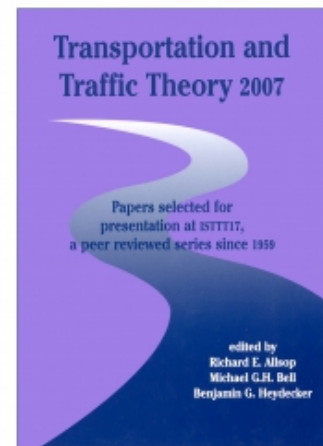

Michael G. H. Bell

Benjamin G. Heydecker

Richard E. Allsop

About the Book

"The ISTTT" series is the main gathering for the worlds transportation and traffic theorists, and the resulting volume is a field-defining milestone featuring the most promising thinking and theoretical developments. It reflects the major renewal the field is experiencing, with the entry of many new scientists from a variety of disciplines, and the mutual coexistence of a growing number of theoretical perspectives and modelling cultures. It includes peer-reviewed international contributions in the field of transportation and traffic theory. It addresses planning, design, and management of transportation systems.
