

International Comparisons of Prices, Output and Productivity

Contributions to Economic Analysis

About the Book

This book addresses the problem of how to fight corruption in the public sector. The study presents a comprehensive analysis of corruption that not only highlights the problems, but also potential solutions for a broad range of corruption manifestations in tax administration, government expenditure programs and other areas of fiscal policy and management. The analysis and discussion is supported and clarified by relevant real-world examples and empirical analysis. In particular, country-specific examples are used to identify key issues and valuable lessons for reducing corruption. It provides a comprehensive overview of corruption issues. It covers the different forms of corruption: administrative and political corruption. It identifies successful policy responses.
