## About the Book

This is "ALAO"'s first nation specific volume. It represents part of an effort to further internationalize the journal's contents and interests. The volume's papers describe the Library & Information Science community in Finland, outline the history of Library & Information Science in the country and reviews the scientific achievements of its Library & Information Science scholars. These papers deal with some universal themes and topics in Library & Information Science research and practice and demonstrate the unique Library & Information Science contribution Finnish scholars/practitioners bring to these problems and issues. This book series is available electronically at website.
