

Advances in international banking and finance

Advances in International Banking and Finance

Sarkis J. Khoury

About the Book

This series focuses on topics such as international financial markets, pricing options on foreign assets and the ECU as the financing currency. This volume includes a section on European acquisitions by French banks, strategies and the European financial structure. Other areas covered include: regulatory taxes; investment and financing decisions for insured banks; free trade and the European financial structure; and a critical reexamination of the return genesis process of the arbitrage pricing theory.
