

# New Perspectives in Global Environmental Disasters

Emerald Gems

Emerald Group Publishing Limited

## About the Book

New Perspectives in Global Environmental Disasters is a unique collection of articles that represent the very highest level of scholarship in the sphere of environmental management research. The articles published in this collection identify some emergent themes that have subsequently established themselves as key issues among academics in the field. These include the following:- Community-based disaster management- AHP based decision support systems- Crisis management- Emergency planning. This new collection provides an unparalleled insight into the world of disaster risk and reduction management, and will enable readers to access the most important "thinkers" active in this arena today.
