## About the Book

Built Environment and Property Management - A Focus on Australia is a unique collection of articles that represent the very highest level of scholarship in the field. The articles published in this collection identify some emergent themes that have subsequently established themselves as key trends among academics in the field. These include the following:- Green buildings- Management efficiency- Made-to-order housing- Corporate social responsibility- REIT performance. This new collection provides an unparalleled insight into the built environment and property management industry and will enable readers to access the most important 'thinkers' active in this arena today.
