

# The Catalyst Effect

## 12 Skills and Behaviors to Boost Your Impact and Elevate Team Performance

Jerry Toomer

Craig Caldwell

Steve Weitzenkorn

Chelsea Clark

## About the Book

Have you ever known colleagues who the minute they stepped into the conference room, on stage, or onto the playing field, elevated the performance of everyone around them? Someone whose impact within the team could be seen in nearly everything that was said and done?

These individuals are catalysts - they spark excellence in the behavior and the performance of the entire team.

*The Catalyst Effect* identifies the behaviors and skills needed to lead from wherever you are, regardless of your role or title. It describes powerful leadership and teamwork principles—12 clearly defined competencies, based on field research with professionals in business, sports, the arts, and non-profit organizations—that will elevate the performance of individuals, teams, and your entire organization.

This essential guide will show you how to learn and practice these catalytic competencies and help your group and organization achieve greater success, improve team dynamics, and help teammates grow in stature while magnifying their value.
