

Emotions and Leadership

Research on Emotion in Organizations

Neal M. Ashkanasy

Wilfred J. Zerbe

Charmine E. J. Härtel

About the Book

This volume of *Research on Emotion in Organizations* contributes to the ongoing research on emotions in the workplace, focusing on organizational leadership and interpersonal relationships within organizational structures. The chapters in this book represent a range of different methodologies that reveal the pervasive role of emotions in leadership and emphasize the need for scholars to address emotions if they are to obtain a more complete understanding of organizational leadership.

Emotions and Leadership is divided into three parts which explore and analyse developments in the following areas: leadership and individual team members, leadership and its effects on the team construct, and leadership in the overall context of organizations and culture. This three-level analysis provides a foundation for future research into emotion in organizations, organizational psychology and leadership.
